EDUCATION

Baku Engineering University, Azerbaijan Sept. 2022 – July 2026
Bachelors in Computer Engineering (Graduated) GPA: 90.85/100

Kathmandu Model Secondary School, Nepal December 2021
National Examinations Board GPA: 3.08/4.0

Relevant Coursework: Official and Academic Communication in Azerbaijani language, Principles of Entrepreneurship and Introduction to Business, Engineering Economics, English for Business and Academic Communication (Reading/Writing), English for Business and Academic Communication (Listening/Speaking), Introduction to Multiculturalism, History of Azerbaijan, Basics of Computer Engineering, Basics of Programming (C & C++), Web Systems and Technologies, English for Academic Purposes, Linear Algebra and Analytical Geometry, Circuit Theory, Mathematical Analysis, Physics, Object Oriented Programming (Java), Data Structures and Algorithms, Computer Architecture, Basics of Electronics, Discrete Mathematics, Operating Systems, Database Systems, Digital Systems, Modern Programming Languages (C# & .NET), Differential Equations, Internet Technologies, Computer Graphics, Computer Networks, Civil Defense, Machine Learning, Computer Modeling, Computer System Security, Artificial Intelligence, Probability Theory and Mathematical Statistics

Awards: Azerbaijan Government Scholarship 2022

CERTIFICATIONS

AWS Certified Solutions Architect – Associate (SAA-C03) | *Amazon Web Services* Sept. 2026 – Sept. 2029

- Validated technical expertise in designing secure, resilient, high-performing, and cost-optimized cloud architectures on AWS.
- Validation Number: [b1aa68678d2242fbbcabcb3582c23a98](https://aws.amazon.com/certification/verify/b1aa68678d2242fbbcabcb3582c23a98) | [Verify Credential](#)

Google Cybersecurity Certificate | *Google* July 2025

- Demonstrated hands-on competence in network security, SIEM tools, intrusion detection, Linux, SQL, and Python automation.
- Credly Verification: credly.com/badges/197d6a41-c0ef-47f8-b878-e7d9570a6924

2nd Runner Up – LumbiniX 2026 National 48-Hour Hackathon | *Lumbini City College* Aug. 2026

- Built and demonstrated an end-to-end full-stack AI platform under 48-hour hackathon constraints (Team AutisticX, Certificate ID: [LXG63R9T2K](#), [Verify](#)).

Google Cloud Skill Badges & Arcade (Diamond League) | *Google Cloud Skills Boost* 2024 – Present

- Completed 100+ Skill Badges across Cloud Architecture, Generative AI, DevOps, Security, and BigQuery (121,850+ points; [Public Profile](#)).

Anthropic Certificates: Claude 101 & AI Fluency | *Anthropic Courses* June 2026

- Mastered prompt engineering, constitutional AI, and agentic workflows (AI Fluency Score: 10/10; [hpyyegx93qt3, 9woxfu7i4omo](#)).

IELTS Academic (Overall Band: 7.5) | *British Council / IDP* Dec. 2025

- Listening: 8.5, Reading: 7.5, Writing: 7.0, Speaking: 7.0 (Centre AZ001, Candidate No: 502079, TRF: 25AZ502079ARYP001A).

EY Strategy and Corporate Finance School | *Ernst & Young* Dec. 2025

- Completed corporate strategy, financial modeling, and business valuation training.

freeCodeCamp Information Security & Full Stack Certifications | *freeCodeCamp* 2023

- Information Security Certification (HelmetJS, TCP/IP, Nmap) & Legacy Full Stack Developer Certification.

Algorithmic Bargaining: Usability, Challenges, and Market Implications in Dynamic Pricing Systems

May 2025

Journal of Baku Engineering University (BEU), ISSN 2521-635X

DOI: 10.30546/09090.2025.01.1090

- Conducted research on dynamic pricing systems and interactive bidding algorithms, analyzing usability, market implications, and societal impacts. Focused on e-commerce applications and algorithmic negotiation. Explored ethical considerations, fairness, and transparency in pricing models, examining consequences for competition and consumer welfare.

EXPERIENCE**Founder & Executive Director | Prabesh Technologies Pvt. Ltd. (Kathmandu, Nepal)** July 2026 – Present

- Founded an incorporated technology venture focused on enterprise software solutions, cloud infrastructure, AI systems, and digital platforms.
- Directing system architecture, engineering operations, and technical strategy across projects.

University Internship | SINAM (Baku, Azerbaijan) Feb. 2026 – June 2026

- Underwent full-stack development training focusing on low-level JavaScript and system optimization.
- Rebuilt JavaScript fundamentals with a robust systems perspective, completing part of the final-year academic program.

Technical Lead & Systems Architect | EtudyGo LLC Aug. 2025 – Jan. 2026

- Architected and deployed a cloud-native student mobility platform using Google Cloud Run, Docker, and Kubernetes, optimized for scale.
- Led frontend development and translated business requirements into technical solutions while supporting Java Spring Boot backend services.
- Implemented CI/CD pipelines and managed Cloud SQL, Cloud Storage, and IAM for reliability and scale.
- Built a Telegram bot for system monitoring, uptime checks, and error reporting to enhance operational insight.

Full Stack Developer | Hyperce.io (Remote, Kathmandu, Nepal) Sep. 2025 – Nov. 2025

- Built shipping and checkout integrations using Vendure and Nest.js across client stores, optimizing eCommerce logistics.
- Evaluated providers (Nepal Can Move, GoShippo, Freightcom) and improved reliability via address normalization and geocoding.
- Manage AWS infrastructure, including logging into EC2 instances and handling deployments, monitoring, and troubleshooting.
- Collaborate with international teams to deliver scalable, vendure-powered e-commerce platforms and ensure robust backend operations.

Software, DevOps & Full-Stack Engineer | Developer, Founder, and Designer Oct. 2019 – Present

- Engaged in diverse Python projects and web development, including advanced web applications, cloud computing, server management, and automation for several clients.
- Specialized in scraping, scripting, bot and chatbot creation, and full-stack development.
- Proficient in AI/ML, cybersecurity, and system administration, demonstrating expertise across various Python applications and solutions.
- Handled the complete lifecycle of website development, including designing, developing, and deploying across 20+ domains, including platforms like **innovative-eco-krishi.com.np**, **prepielts.pro**, **gotrafinder.com**, and **salambaku.info**.
- Gained extensive experience in full-stack development and cloud deployment with **React**, **Next.js**, **Node.js**, **Python/Django/FastAPI**, plus **CI/CD**, **Docker**, **Kubernetes**, **Terraform** to streamline releases.
- Focused on automation, scalability, and security while delivering production-ready solutions with modern UI/UX interfaces.

WUF13 Volunteer | UN-Habitat, Baku, Azerbaijan May 2026

- Served as a Room Support Team Member for the 13th World Urban Forum (UN-Habitat) in Baku from 17 to 22 May 2026.
- Supported session readiness, guest assistance, and on-site coordination across 40 scheduled volunteer hours, promptly escalating technical or logistical issues.

SKILLS

Languages:	Python, C, C++, Java, JavaScript, C#, PHP, HTML, CSS, SQL, jQuery, GraphQL, L ^A T _E X
Frameworks:	React, Redux, TypeScript, Node.js, Express.js, Material-UI, Django, Flask, D3.js
Cloud & DevOps:	Google Cloud, AWS, Docker, Digital Ocean, Alibaba Cloud, Heroku, Vercel, Kubernetes
Design & Animation:	Adobe XD, Figma, Photoshop, Inkscape, Canva, GIMP, Maya Animation, Blender
Video Editing & Effects:	Adobe After Effects, Adobe Premiere Pro
Tools:	Git/GitHub, Unix Shell, Webpack, VS Code, IntelliJ CLion/PyCharm/IDEA, Visual Studio, Powershell, Bash
AI/ML:	PyTorch, TensorFlow, scikit-learn, YOLO, Hugging Face, Seaborn, Keras, FastAPI, ML Model Deployment, Data Preprocessing, Feature Engineering, NLP, Neural Networks, Computer Vision, STT, TTS, RAG; Proficient with AI models (GPT, Claude, Gemini) & agents (Copilot, Cursor)
Databases:	MySQL, SQLite, PostgreSQL, Microsoft SQL Server, Oracle Database, MongoDB, Redis, Firebase, DynamoDB, Cloud Storage Buckets, BigQuery
Libraries:	pandas, NumPy, Matplotlib, Selenium, OpenCV, EasyOCR

LEADERSHIP & ACTIVITIES

International Students' Club of Baku Engineering Uni.	 	<i>Board Member</i>	2022 – 2026
Supported club operations, event organization, strategic communications, and international student guidance, fostering a dynamic and supportive community.			
Class Representative/Captain	 	<i>Horizon G.B.S. School, Kathmandu Model Secondary School</i>	2013 – 2021
Served as the Class Representative, recognized as one of the best CRs for effective leadership, communication, and coordination between students and teachers. Managed class activities, resolved conflicts, and ensured smooth communication between the class and school administration.			

INTERESTS

Technical Interests:	Physics, Quantum Science, Cryptography, Evolution, Mathematics, Geopolitics, History
Languages:	Nepali (Native), English (Proficient), Hindi (Proficient), Azerbaijani (Beginner)
Soft Skills:	Leadership, Communication, Problem-Solving, Teamwork, Critical Thinking, Adaptability
